

**DEVOODS®**

# **DEHUMIDIFIER MDH-20A**

## **Moisture & Humidity Control Specialist**

*Smart Air Quality Engineering Solutions*

## Why Dehumidify?

Every place should be mold free. Mold and fungi can damage the place where they are present. It can also cause allergy reaction, asthma and other respiratory ailments.

The solution is to control the source of the problem by removing excessive moisture in the room. Moisture in the surrounding creates a conducive environment that encourages the growth of biological pollutants.

## Removes Moisture In The Air With DEVOODS Dehumidifier

A Dehumidifier is used to reduce the humidity in the air. It works to control the humidity by removing the moist air in the atmosphere.

A fan draws the room air (wet air) over the evaporator to condense the moisture and water is collected in a container. Dry air will then pass through the reheat coil and recirculated back into the room.

## Water Damage / Drying Building

Water damage is one of the most significant and common causes of building damage. It is a result of leaking roof, broken pipes or flood water.

Warehouses and Manufacturing facilities are particularly susceptible to water damage resulting in financial and commercial losses. Water and Moisture can ruin raw materials, inventories, machineries and building structure. Mold growth should be cleaned and sanitized as it poses a critical health threat to occupants.

## Technical Specifications

Model	MDH-20A
<b>CAPACITY</b>	
Dehumidifying Capacity (30°C RH80%)	20L/day
Water Tank Capacity	6.5 L
<b>SPECIFICATIONS</b>	
Power Consumption	265W
Air Volume	145m <sup>3</sup> /hr
Noise Level	≤43dB (A)
Operating Temperature	5 - 35°C
Refrigerant	R134A
Net Weight	14 kg
Timer	1 - 24H
Product Size (W x D x H)	360 x 285 x 564 ( mm )
<b>FEATURES</b>	
Air Purifying	Yes
Auto Dehumidifying	Yes
Timing Off	1 - 24H
Automatic Shut Off When Tank Full	Yes
Soft Key Button	Yes
Display Screen	LED
Compressor Type	Rotary
Washable Air Filter	Yes
Continuous Drain Out Option	Yes
EU Garden Hose Adapter	Yes
Convenient Humidity Level Indicator	Digital and Light Indicator
Clothes Drying	Yes
<b>WARRANTY</b>	
Warranty	2 Years (T&C applies)

## Special Features

- ▷ **Energy Saving Dehumidifier**  
The dehumidifier can remove moisture contain up to 20L/day with only 265W power consumption.
- ▷ **Auto Shut Off**  
The dehumidifier shut off when the container is full, or when the container is removed.
- ▷ **Continuous Drain Out Option**  
Collected water can be automatically drained by attaching a hose to the unit.
- ▷ **Auto Dehumidifying Function**  
The dehumidifier will automatically control room humidity level to a comfortable range according to the room temperature.
- ▷ **Multi-Function Dehumidifier**  
Other than dehumidifying, the dehumidifier has multi-function such as air purifying and clothes drying.
