

Odor Emission Control Filter

- Reduces Gases and Odors
- Honeycomb Construction
- Suitable for Commercial and Light Industrial Applications
- Strong Frame with Aluminum Construction

The carbon filter could effectively removes offensive odors. It is ideal indoor air quality solution for faculties seeking relief from irritating odors, associated with cigarette smoke, food preparation and vehicle exhaust.

Standard Dimension

Actual Dimensions (mm) W x H	Airflow (m3/h)
470 x 460	850 - 1500

Specifications

Maximum operating temperature	<50 °C
Maximum relative humidity	70%
Media	Granular Activated Carbon
Cell sides	Aluminum Frame

Technical Data

Type	2" Honeycomb Granular Carbon
Actual Depth (mm)	50
Rated Face Velocity (m/s)	1.5 - 2.5
Rated Initial Resistance ¹ (Pa)	150
Recomm. Final Resistance ² (Pa)	250
