MOISTURE & HUMIDITY CONTROL SPECIALIST

INDUSTRIAL DEHUMIDIFIER MDH-480A

**For Illustration only*

CONTROL MOISTURE & HUMIDITY WITH **DEVOODS®** DEHUMIDIFIER

The **DEVOODS** series dehumidifier is built particularly for air drying in closed rooms. The dehumidifier can prevent the formation of condensation, eliminate high air humidity and hold a specific air humidity constantly. The time which the dryer requires in order to achieve a specific humidity depends essentially on the environmental conditions. The attainable humidity value is equally dependent on the environmental conditions.

TECHNICAL SPECIFICATIONS

Model	MDH-480A
Dehumidifying capacity 30°C, 80% RH	480L/Day
Compressor Type	Rotary
Power Consumption	5600W
Power Supply	415V/3Ph/50Hz
Dimension (WxDxH)	1200 x 540x 1740 mm
Net Weight	240 kg
Fan Speed	2
Noise Level	66db
Warranty	2 years

SPECIAL FEATURES

- ✓ Rotary compressor with Environmental Friendly Refrigerant R410A
- ✓ Remote Interlocking / RS-485 Terminal
- ✓ LED display panel with touch-key
- ✓ Up to 24 hours timer
- ✓ Continuous drain out
- ✓ Auto Restart and Defrost
- ✓ Washable Air Filter
- ✓ Heavy Duty Caster
